

** ARGENTINA [non]. 9455, Fri Feb 6 at 2300, RAE via WRMI language-of-the-day is: Chinese! WRMI blue System D skedgrid still claims Portuguese on M/T/0/F; while the separate unlettered but first skedgrid for RAE claims at 2300 it's on 7570, 9955 --- NOT. Somethings odd at 0kee (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon Feb 9 at 2304, RAE relay via WRMI again in Chinese, ex-Japanese, ex-Portuguese, ex-Spanish. For all those Chinese Argentines across the USA? (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Feb 10 at 2259, WRMI relaying WRN closing DW, bit of FSN chopped for ID, 2300 ``Welcome to Encore``, timesignal, vamping music and opening RAE again in Chinese, maybe permanent replacement for DX olds in Portuguese. But I wonder if they ever attempt to translate a DX program, old or new (Glenn Hauser, OK, WOR)

** BRAZIL. 9818.53, Feb 5 at 0715, S6/S7 JBA talk, Portuguese? Surely R. Nove de Julho always way off-9820 (Glenn Hauser, OK, WOR)

** BRAZIL. 28422 USB, Feb 10 at 2306, PY5AS speaking extremely fast, mixing Portuguese and Spanish, and bits of music breaking thru, from him? Then English contact with JH1RFZ, see JAPAN. QRZ.com: ``PY5AS Brazil flag Brazil, Sergio Aparecido Souza, CP 1222, SÃO MARTINHO, PR 86609000, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 28457 USB, Feb 10 at 2307, ZV1RJ, from Rio, QRZ, contact W6ABM, talking over each other. QRZ.com: ``ZV1RJ Brazil flag Brazil, LABRE - Liga de Amadores Brasileiros de Rádio Emissão, Brazilian Amateur Radio League - LABRE, 1934 - 2026 \* 92 years of LABRE commemoration, Brazil``

28430 USB, Feb 10 at 2313, Feb 10 at 2313, ZV2SP calling QRZ in English. QRZ.com with exactly the same non-info as above: ``ZV2SP Brazil flag Brazil, LABRE - Liga de Amadores Brasileiros de Rádio Emissão, Brazilian Amateur Radio League - LABRE, 1934 - 2026 \* 92 years of LABRE commemoration, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 300 MCW kHz, Feb 6 at 0743, dash and YIV, 500-watt NDB at Island Lake MB (Glenn Hauser, OK, WOR)

** CANADA. 351 MCW kHz, Feb 5 at 0719 UT, dash and YKQ, 500-watt NDB at Waskaganish QC, only beacon somewhat unusual vs noise level. This is on an inlet from the SE end of James Bay, not far from the ON border (Glenn Hauser, OK, WOR)

** CANADA. 351 MCW kHz, Feb 8 at 0750 UT, dash and YKQ, only somewhat unusual, 500 watt NDB from Waskaganish QC (Glenn Hauser, OK, WOR)

** CANADA. 1610 kHz, Feb 9 at 0600 UT, CHHA with singing ID all in Spanish, including call letters pronounced in Spanish, ``LV de nuestra comunidad``. CH is considered a single letter in Spanish following plain old C in its alfabet, but instead of ``che-ache-a`` it was ``C-H-H-A`` (Glenn Hauser, OK, WOR)

** CHINA. 13570, Feb 8 at 0356, weak in English, not Spanish and not // 9820 so not R. Martí; rather CRI in English to where else? Siberia, per EiBi, from Xian site (Glenn Hauser, OK, WOR)

** CHINA [non]. 9790, Feb 8 at 0353, CRI English S9+40/50 and somewhat undermod via CUBA (Glenn Hauser, OK, WOR)

** COLOMBIA. 1100+ & 1310--, Feb 9 at 0602, the two Barranquillans are still making their presence known with JBA carriers hetting UStations,

the 1310 higher pitched (Glenn Hauser, OK, WOR) see also unID 6016+

** CUBA. 1620 kHz, Feb 9 at 0814, R. Rebelde // 5025; no sign of WTAW TX or KOZN NE nor any other USA; off for a Monday morning? (Glenn Hauser, OK, WOR)

** CUBA. 9710, Feb 5 at 0713, S9+25/30 of dead air from RHC, congratulations, the SS0B = strongest signal on band. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Feb 5 at 1532, S9+10 of deadair except for windhowl, or maybe buried JBM. 11760 at 1537, S7/S9 of clear dead air. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11880, Feb 6 at 0726, S5/S7 of dead air, presumably RHC, a frequency of theirs much earlier, and nothing else listed now. Gotta run at least one transmitter pointlessly into the night. Somethings always wrong at RHC. Standard remark about how the cost of all that wasted juice could better be applied to improving the diet of undernourished Cubans (Glenn Hauser, OK, WOR)

** CUBA. 15140, Feb 7 at 0712, JBA carrier, likely RHC; also JBACs on 15300, 15350; and 15770 which means WRMI is barely propagating, so Cuba could too. Then at 0722, S9+25 of DA on 11760, or is it JBM? Has to be RHC, and even more so at 0725 on 9710, S9+25 of deadair. At 1549, 15140 with S8/S9 of windhowl. At 2007 into Georgia SDR, only 15140 windhowl S9/+25, makes neat symmetrical patterns on the waterfall. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 9 at 0457, windhowl only at S9+40 from RHC, SAWA, no other frequencies found (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 10 at 2258, RHC S9+20/30 of windhowl; 11880 clean deadair at 2318, S9+10/20. No 15 MHz, but 13650 CRI music instead of Portuguese is on. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 11 at 1544, RHC Spanish and music S9+20; // 15230 S5/S7; and // with windhowl 15140 S9. SAWA (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9490, UT Sun Feb 8 at 0348, Spanish at S9+20/30 about Cuban history, but audio craps out and stix and repeats briefly, then OK. Since R. República is not scheduled now, I ponder whether RHC could have been smart enough to move onto its frequency? Naaah, too busy broadcasting S9+20/30 of dead air on 9710; and S9+20 of windhowl only on 11760; while 6000 is off. Back on 9490 at 0358, ``La Cuba que Perdida[?]``. R. República ID with websites, and SW sked as: lunes a jueves 9-10 pm, viernes a domingo 9-11 pm; and cut off at 0359* UT. Translated from EST to UT days and times: Tue-Fri 02-03, Sat-Mon 02-04. WRMI skedgrid at the very end shows relays via Issoudun, France, as of B24?! including R. República, at 02-03 UT on 9490 on Sat/Sun/Mon only! Now what will happen March 8 with the imposition of foolish DST in USA and consequently in the Running Dog of Yankee Imperialism? Everything one UT hour earlier? (Glenn Hauser, OK, WOR)

** ECUADOR. 6050, Feb 10 at 0800, surprised to hear Spanish at this hour, mentions Pichincha and an FM frequency, then preaching. Must be HCJB, which is normally OFF between 0500 and 0923, or Tue-Sat between 0235-0925 or so. Pichincha is Quito's province, and if you hunt for it on page 215, WRTN 2026 shows HCJB on 89.3; long gone from MW 690 (Glenn Hauser, OK, WOR)

** ECUADOR. 6050, Feb 11 at 0739, S8/S9 of Spanish; must be HCJB again running all-night (Glenn Hauser, OK, WOR)

** FRANCE. See U S A [non]. Tony Alamo still on via Issoudun

** HUNGARY. 28477 USB, Feb 7 at 1543, HA3NU calling QRZ contest and working. QRZ.com: `HA3NU Hungary flag Hungary, LASZLO WEISZ, RÁKÓCZI U. 23-25. B/2 FSZ. 2., SZEKSZARD H-7100, Hungary -- If you'd like to know more from me, please visit my home page: www.ha3nu.hu `` One of few signals on band. If this is propagating, maybe I can finally hear the low-power Dane on 25800? NO (Glenn Hauser, OK, WOR)

** IRAN. 11780, Feb 9 at 0458, JBA carrier with flutter. Could it be Brasil still on, forgot to turn off? No, at 0420-0550 only IRIB in Turkish scheduled (Glenn Hauser, OK, WOR)

** JAPAN [and non]. 28422 USB, Feb 10 at 2306, JH1RFZ in contact with PY5AS, see BRAZIL. QRZ.com: ``JH1RFZ Japan flag Japan, Takeshi Mizoroki, 2-9-6-tomuro Atsugi-shi, Kanagawa 243-0031, Japan`` (Glenn Hauser, OK, WOR)

** KOREA NORTH. 9875, Feb 6 at 0719, S5/S6 singing, presumably VOK in Russian as scheduled. Did not seem significantly off-frequency (Glenn Hauser, OK, WOR)

** MADAGASCAR. 9755, Feb 8 at 0352, La Voz Alegre, with phone or other contact numbers (Glenn Hauser, OK, WOR)

** MALAYSIA. 11885, Feb 5 at 1538, JBA talk S4/S5, maybe RTM reactivated on SW; this and 15295 have been widely reported in the WOR iog, schedules uncertain. Not yet in EiBi or Aoki, lots of Vietnam and China on 11885 but open at this hour. As I pointed out, 11890 was completely unused. EiBi does show 15290/15295 as testing 2200/1400 (Glenn Hauser, OK, WORLD OF RADIO 2333)

** MALAYSIA. 11885, Feb 8 circa 1530 JBA signal direct; at 1618 into KFS NW antenna, S9+15 distorted music and 1620 Indonesian? = Malay talk, mentions UNESCO, certainly not Vietnam in English as scheduled. More music. Further test of new transmitter. Zach Liangas reported at 1637: ``Corr Rtm network feed change -- Heard now 16+ z the feeds are now changed to 11885 Sabah v FM and 15295 Nasional FM. The \*11885\* khz feed was a bit garbled with strong signal on the SW Au kSDR and partially with low audio. !!Stop missing the forest for the trees, Zacharias Liangas, Radio worker`` More of my monitoring thru KFS: 1700 ``don't be greedy`` PSA in English, ID as Sabah V FM, 92.7 in Kota Kinabalu, ``experience variety``. Not sure of the word/letter between Sabah and FM, but WRTH 2026 page 336 shows 92.7 in K.K. as Sabah VFM. 1755 UT still going long after local midnight, songs, 1759 PSA about energy, food, exercise, ``experience variety, Sabah VFM`` (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, Feb 7 at 0745, extremely distorted, intonation recognizable as Spanish, atop KQCV OKC, as XEERG NL is worse than ever (Glenn Hauser, OK, WOR)

** MEXICO. 970, Feb 9 at 0604 ``La Jota Mexicana, 9-70``, i.e. XEJ Ciudad Juárez, 1/1 kW (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, Sat Feb 7 at 0714, S9/+20 ``Going Home`` soprano, song to the tune from Dvořák's New World Symphony. Rare to hear anything nearly classical on RNZP. Ends at 0719 but no back-announcement and into non-classical. It's the request show allowing that to happen: ``8:08 PM. Saturday Night -- Saturday nights on RNZ National is where Paul Brennan plays the songs YOU want to hear. All music from 7 till midnight (RNZ)`` - Here's another version: <https://youtu.be/AAw78F0khZs> (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 AM, Feb 8 at 0339, pirate music S9+10/20 direct. Strangely enough, no reports of this in HFU, rather nothing after WDOG on 6925 USB from 0047 to 0134*. Also an open carrier on 6938, pirate or ute? (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Feb 8 at 0340, pirate rock music, S9+10 direct. unIDs in HFU from 0334, but with SSTV labeled Scottie 2:

** NORTH AMERICA. 9025 AM, Fri Feb 6 at 1550, listening via IL remote, no signal, but cuts on S5/S7 at *1553 ``presidential pirate`` with JFK inaugural speech JIP. Previous logs have been a few minutes before 1600; maybe this is on more often, last caught Feb 4. And he's cut off the air at 1558*. I let it run past 1619 in case it cut back on but not --- until *1639 back to JFK JIP, gone again after a few minutes. *1654-1658* on again with fragment of JFK. Apparently from old documentaries; again at *1711-1713* bit of FDR announced as from 1936. *1728-1730* another bit, different voice, ``so help me god`` - an oath of office. *1739.5 back on with a bit of JFK, soon off. Well, that's enough of that. These bits certainly do not do justice to significant historical events (Glenn Hauser, OK, WOR)

** OKLAHOMA. 5140 USB, Wed Feb 11 at 1500, Oklahoma emergency net, this time with OM WPFY721 Seminole EOC as NCS, roll call, no replies, U.O.S.:

WNBE830 [Jefferson City MO] no reply;
1507 closing net until next week (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.1, dead air not heard lately in Enid as of Feb 7. I have no reason to believe it's a licensed station, hardly ever any modulation, but WTFDA reports an FCC axion of Feb 6: ``K226BR 93.1 Enid OK move site to 36-25-14 97-52-30`` It had been a translator of KIMY 93.9 Watonga gospel huxter, but gone for years. May a comeback be pending? FCC LMS shows previous NAD83 Coordinates:
36 23' 48.1" N 97 52' 39.2" W -- so moving further north and slightly westward from the decrepit Broadway Tower in downtown Enid. Google Maps leads to 294 East Willow Road, which is about one block west of the studio and towers of KCRC 1390. However, that would be slightly east rather than west of the BW tower longitude (Glenn Hauser, Enid, WOR)

** POLAND [non]. Re: ``Meanwhile on 15770, PRES via WRMI, excellent with news about a Polish official refusing to recommend Drumpf for a Nobel Peace Prize, yes, still/again pushing for it, as ``he does not deserve it`` - IMHO, anyone openly coveting one should be automatically ineligiblized (Glenn Hauser, OK, WOR)``

This reply from an unnamed poster to HCDX: ``Just to clear things out: It's Wlodzimierz Czarzasty, current Speaker of Polish Parliament (Sejm). He was a member of communist party (PZPR) from 1983 to the end of its existence, 1990.

https://en.wikipedia.org/wiki/W%C5%82odzimierz_Czarzasty
Hardly a moral authority. Member of far left party which currently is an ally of ruling liberals, so he has a good press in official, government mouthpiece like PRES. Hard-Core-DX mailing list`` (Glenn Hauser, OK, WOR)

** ROMANIA. 9720, Feb 8 at 0350, Spanish, and Romanian song, from RRI, S9+20/30 (Glenn Hauser, OK, WOR)

** SPAIN. 17755, Feb 6 at 2304, REE African frequency still totally off the air, not even JBA carrier into Georgia SDR, while the others are VG 17715, 12030, 9690. Some editor will not file this under 17755 where nothing was heard, despite that being the *total point* of this observation (Glenn Hauser, OK, WOR)

** SPAIN. 17755, Feb 9 at 2306. REE African frequency again missing, but quite well audible direct on all the others, 17715, 12030, 9690; if it's Monday there must be no English (Glenn Hauser, OK, WOR)

** SPAIN. 17755, Feb 10 at 2315, this REE for Africa still AWOL, good direct on the others 17715, 12030, 9690, bit of English but being translated to scheduled French on Tuesdays (Glenn Hauser, OK, WOR)

** SPAIN. 9690, 12030, 17715, Wed Feb 11 at 2300, REE token English all well audible direct but not 17755. Heavily accented announcers, start mentioning World Radio Day on Feb 13; at 2318 a feature on some anniversary of radio in Spain (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Feb 6 at 2302, VOT English not off the air, S9+10/20 into Georgia SDR (Glenn Hauser, OK, WOR)

** TURKEY. 9660.008, Sun Feb 8 at 1740, VOT English S9+25/30 into UTwente, news by unfamiliar M voice with accent, and a bit distorted. 1741 into Cemre with her ``beloved`` Letterbox: 1) Jamie Evans, K24GBB [sic, can't find a similar ham call], Georgia; needs Pmail address for QSL. 2) Patrick Travers, Sheffield, England. 3) Jayanta Chakraborty/Chakrabarty [I'm always confused about spelling and so is he: spelt both ways on a single dxindia post! No doubt there is no confusion in Bengali: ``Chakraborty Name Meaning Indian (West Bengal) and Bangladeshi: Brahmin name, čokroborti in Bengali, from Sanskrit čakravarti 'emperor', which means literally 'wheels rolling'; metaphorically, it denotes a ruler whose chariot wheels roll everywhere without obstruction (čakra 'wheel' + vart- 'to roll').``], has trouble hearing morning bc at 0400 on 6125, 7285 so listened to live stream. 4) David Govan?, NB, Canada, heard Turkish at 21 on 5980. 5) Christian Holberg, Germany, German at 1830 on 5945. At 1751: 6) finally, Anatoly Klepov, Moscow, incredibly detailed; he reports for QSL every month. 1753 ending, QSL or eQSL available by preference. 1754.6 theme, 1755 multi-lingual ID filler reel (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Sun Feb 8 at 2304, NO signal from VOT English into UTwente. Something's always erroneous at Emirler. 5960, Mon Feb 9 at 2305, again NO signal of VOT English direct, and at 2326 into UTwente, nothing but Chinese (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Feb 10 at 2257 VOT IS & English IDs, not off the air, S9 direct = noise level; 2300 into news (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Feb 11 at 2300, VOT English not off the air, poorly audible direct (Glenn Hauser, OK, WOR)

** U S A. 374 MCW kHz, Feb 10 at 0734 UT, JBA NDB copying only one letter for sure, Y, and it is not the first letter. Only fit in the RNA list, also by proximity but not heard before is: HY, `Nette` HaYs

KS, power 0 = unknown, last logged 2026-02-09. DXinfocentre says 25 watts (Glenn Hauser, OK, WOR)

** U S A. 407 MCW kHz, Feb 6 at 0759 UT, AQ, mixing JBA with my strongest near-local, HRU in Herington KS. AQ is 25 watts from `Kooky` Appleton WI, new for me (Glenn Hauser, OK, WOR)

** U S A. 419 MCW kHz, Feb 9 at 0730 UT, RYS, 25 watt NDB at `Grosse Île` Detroit MI. RNA list explains: ``!! To be decommissioned 17APR2025 per NFDD 035 - 2 (02/24/2025) // 2 X sdb harmonic rptd // 2025 Aug still transmitting`` - so harmonic would be on 838 (Glenn Hauser, OK, WOR)

** U S A. 515 MCW kHz, Feb 9 at 0731 UT, my strongest NDB, PN Ponca City OK is alternating with JBA OS: that's 25 watts at `Fuler`, cOumbuS OH. Their periods are 1.3 seconds apart, so not long to be alternating vs colliding (Glenn Hauser, OK, WOR)

** U S A. 15016 USB, Feb 11 at 1543, USAF crypto exercise in progress, soon concludes message of 35 characters. This is ten-timer, out. Not at all sure of that tactical ID (Glenn Hauser, OK, WOR)

** U S A [non]. 9310, Feb 5 at 1525, S9/+20 open carrier except for tix once a second. 1527 continuous tone. 1529 `Yankee Doodle Dandy` and s/on VOA; 1530 pause and Korean as ``VOA`` rather than VOT; via Tinang, PHILIPPINES (Glenn Hauser, OK, WORLD OF RADIO 2333)

** U S A. 9265, Feb 9 at 0459, WINB S7/S8 direct playing Star Spangled Banner, missed first part to tell whether they are still disrespectfully talking over it. I'm checking whether a new biweekly episode of 'Ask WWCN' be available, due as of Feb 7, but no, still old Jan 24 upon which I reported in detail (Glenn Hauser, OK, WOR)

** U S A [non]. 9690, Ron Howard was shocked to hear the disgraced dead gospel huxter Tony Alamo, Feb 9 at 2020-2058, from what station? His full report below. I replied:

'Ron, Here's the answer from WRTH 2026 page 735: on 9690, Pan American Broadcasting [ex-Eq Guinea], 500 kW via Issoudun, France, 2000-2015 Sat & Sun, 2030-2100 Sun, to Pacific [as also in HFCC]. Well, almost, not showing Monday. Also p 634 under USA. No mention of Alamo. You might want to complain to PAB HQ. [in nearby Pleasanton CA]. I tuned in 9690 just in time at 2058 Tue Feb 10 via Qatar remote, to hear some gospel music atop Spain until 2059*. Glenn'

'Hi Glenn - Today while checking for the Indonesian pirate on 9690 kHz. (not heard), I was shocked to hear the distinctive voice of Tony Alamo, via Kiwi SDR remote at Bogor, Indonesia. We both know of his infamous background. I find it very hard to believe his old recordings are still being broadcast on SW.

PHILIPPINES[tentative site?], 9690, What station is this? 2020-2058* UT, Feb 9. Yes, a Tony Alamo recording of program #754. He of course died in prison (2017), while serving a 175 year conviction for multiple sex crimes.

May 2017 - "There were lots of items about Alamo in DXLD circa 2008-2011. At his peak he was on, at least, WWCN, WINB and Radio Africa, Equatorial Guinea. What were they thinking?? (Glenn Hauser, DX LISTENING DIGEST)"

There are so many incredible stories about Tony and his wife. Here is one of them –

<https://www.tonyalamonews.com/6127/4917-alamo-mansion-in-disrepair-entered-now-on-a-dare.php>

Here is a posting I made some years ago that might be of interest to those that missed it: "Certainly Tony Alamo's life was stranger than fiction. Years ago, I was amazed to learn about the denim jackets his followers made and he sold to celebrities. The following story sheds light upon what was really happening:

<https://www.refinery29.com/en-us/2018/06/202525/tony-alamo-cult-leader-denim-jackets>

Here is part of the story:"

"The jackets were assembled in a factory in Alma, AR that was converted from a large restaurant. First the raw denim was washed in a drum filled with pumice stones and bleach, then it was cut and sewn into shape. From there, a basic stencil – a skyline or the outline of a cartoon character – was applied using a silk screen and then the delicate work of airbrushing and embellishing could begin. Children manned the rhinestone station. Using their small fingers, they dropped row after row of Swarovski stones into tiny fittings.

The working conditions were harsh. Bleach fumes billowed from the stone washing drum. Every day, up to 150 people – men, women, and children – worked for as long as 14 hours a day. Sometimes the children's fingers bled from handling the pointy rhinestones. The finished product was a genuine Tony Alamo of Nashville jacket. The workers who made them labored for free in the service of a cult leader named Tony Alamo who preached that only he could show them the path to heaven.

The jackets were a hot fashion commodity in the eighties. Flashy and expensive, they were a favorite among celebrities. Dolly Parton, Mike Tyson, Brooke Shields, Burt Reynolds – anybody who was anybody wanted to be photographed in one. Michael Jackson wore a customized leather version on the cover of the Bad album. . . .

Today [2018], the jackets, with their boxy fit, stonewash finish, elaborate airbrushed designs, and sparkling Swarovski crystals are having another moment in fashion. Tastemakers like Nicki Minaj, ASAP Rocky, Miley Cyrus, and Frances Bean Cobain have all recently been photographed wearing the highly sought-after vintage Tony Alamo of Nashville jackets." == Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1070, Feb 11 at 0702 UT, CBS news, strong S9+20, so KNX in absence of KFTI Wichita? But then I hear an understation mentioning Los Angeles; only other CBS affiliate on 1070 in NRC AM Log is WINA

Charlottesville VA, U2 5/5 kW, unlikely. Meanwhile 101.3, KFTI on FM is in C&W music. In daytime 1810 UT Feb 11, Wichita SDR gets no signal on 1070, but can hear 950, 1330, 1410 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1340 kHz, Feb 6 circa 0800, 0900, 1200 UT, no DX test detected from KTOX Needles CA, nor really expected direct and I'm mainly sleeping during the entire 6 hours, but checked upon awakening. There was a huge amount of confusion about the correct scheduling, involving PST conversion to UT, which days of week. Several others did hear this. Another one is scheduled 24 hours later, 08-14 UT Sat Feb 7 from KTPI 1340 Mojave CA. At 1200 UT I was hearing Mexmx on 1340, and ID break but could not copy it. ``6017 2230-0200 irr CLM Organ. Radial El Prado S CLM``. Ron Howard had that on 6016.85 until 0202* March 3, 2025 after Brandon Jordan reported 6016.8 at 0115. Not in WRTH 2026, presumably pirate (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11599.994 approx., Feb 11 at 1548, S6/S7 music slightly on low side. Scheduled on 11600 at 1545-1600 only is Bible Voice via Kostinbrod, Bulgaria in Arabic; also longer spans of CNR1 jamming & Sound of Hope; and FEBC Iba, Philippines in Mandarin (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18985, Feb 11 at 1540, JBA carrier, not a TV set birdie, and right on-frequency. Nothing listed. The only known users of this SWBC band are ChiCom jammers and Sound of Hope (Glenn Hauser, OK, WOR)
